Highlights of the Tree Ordinance.

1. Permits are required for tree removal and planting of trees on the city street parking.

3. Adjacent property owners are responsible for trimming trees on the parking: fifteen (15) feet above the surface of any street or alley and so as not to interfere with the pedestrians' use of sidewalks.
4. Stumps must be removed on city parking to at least ground level.
7. You are not being tested on proper felling, bracing and bolting, or trimming practices but are expected to follow current International Society of Arboriculture practices and ANSI Tree Care Safety Standards. Examples: (1) When trimming, collar cuts should be used instead of flush cuts, (2) Wound dressings should not be used except for aesthetic purposes and then use only a light coating, (3) Topping is not an acceptable method of trimming.
