

Flushing

The City of Boone performs regular flushing of water mains to maintain quality water at your tap.

The City of Boone will be flushing the water mains the week of April 28, weather permitting. City crews will start in the west part of Boone and work their way east. Please check the City website – www.boonegov.com the ***Boone News Republican*** and listen to ***KWBG*** for further updates.

Advice to Residents: If a flushing crew is on your street, please note that you may have temporary discolored water. In the event you have done laundry while the crew was flushing and your clothes are discolored, do not dry the wet clothes. Run your cold water until the discolored water clears out of your pipes. Washing the clothes again (when the water clears) will normally take care of this issue. If the clothes are still discolored, the Water Department office has, available at no charge, a detergent additive.

The City of Boone would like to apologize for any inconvenience to our customers.
