To: Landowners in Drainage District No. 137

RE: Construction Notice – Drainage Repairs
Drainage District No. 137, Boone County, Iowa
Project No.: P13.115458

Dear Landowners:

This letter is to inform you that the contractor for the Drainage Repairs in DD 137 is Ubben Tiling, Inc. He intends to begin open ditch excavation, tree removal, tile exploration, and tile repairs the week of January 7, 2019. We will have surveyors out to stake a rough alignment for the tile within the next few weeks.

Landowners are reminded that an easement exists overtop of the tile lines and is 40 feet on each side of the alignment. For the contractor to have sufficient room to perform his work, all items within the easement area are to be removed before the arrival of the contractor.

All damages associated with lost or destroyed crop or yard damage resulting from the project will be paid at the completion hearing held at the end of the construction work. Notice of the completion hearing will be made to those landowners on whose land the work was performed.

If you have questions, please contact our office at 515-395-3140.

Sincerely,

Bolton & Menk, Inc.

Kent L. Rode, P.E.
Senior Project Manager
