

PRESS RELEASE

Date: August 10th, 2020

Today the City of Boone experienced a severe weather event. As a result we have experienced damage to roadways, trees and power lines, public and private property, and disruption of utility services.

All City Departments are working hard to restore necessary services and begin the process of cleanup. Citizens are encouraged to place any storm damaged trees and limbs out on the parking and the City of Boone will dispose of them as soon as they can.

Please direct any questions to William Skare, City Administrator at bskare@city.boone.ia.us or 515-432-4211 ext 1102.
