

Special announcement

As a reminder it is against City of Boone code (**165.21c**) to place any ground sign in the parking area on any city owned property. The **parking area** is defined as the space between the street curb and the sidewalk. Any ground signs found to be placed in the parking area could be removed without notice.

***165.21C** No ground sign shall be erected or permitted nearer the street than the property line; provided, however, such placement is not in conflict with property lines. No part of said sign shall be permitted to overhang the public domain.*
